# THE REAL PAST TENSE

"Where Did It Go?"

(Verse 1)

Yo, I **woke up** late, **missed** the bus, what a mess!

**Ran** outside so fast, nearly **lost** my vest.

**Saw** my teacher, she **was** mad, yeah, she **screamed**,

"Where **were** you?!"—Man, this ain't a dream.

I **ate** my homework, dog **stole** my book,  
Mom **said** "Do your chores," but I never **looked**.  
Yesterday, I was chillin', playin' games,  
Now I **failed** my test, man, what a shame!

Bu şarkı Bilişim Teknolojileri ve yazılım dersi kapsamında "İngilizce geçmiş zaman fiillerinin nasıl kullanıldığını" açıklamak üzere suno kullanılarak yaratılmıştır.

(Pre-Chorus)

Yo, **where did my luck go?** **Where did it hide?**

I **had** it yesterday, now it just **died!**

Teacher **gave** me a look, yeah, I **froze**,

Then she **called** my mom—now I'm exposed!

(Chorus)

So, will the real past tense please stand up,

Please stand up, please stand up?

We **spoke**, we **ran**, we **saw**, we **knew**,

Yesterday's gone, but the past stays true!

Verse 2)

I **met** a girl, yeah, she **smiled** real bright,

I **told** a joke, and she **laughed** all night.

Then I **tripped**, I **fell**, **hit** the ground so hard,

She just **walked** away—man, love's too hard!

I **bought** some fries, but they **got too cold**,

I **wrote** a rap, but my mic **broke**, oh no!

Last week, I **won**, yeah, I **had** some fame,

Now I **lost**, man, ain't that lame?

(Pre-Chorus & Chorus Repeat) (Outro)

So kids, remember, when you **did** it, it's done,

Past tense rules—ain't no need to run.

If you **learned** these verbs, then you're all set,

Or next test day, you might just regret!

## (Pre-Chorus)

I **jumped**, I **spun**, I **talked** to a tree,

It **said** "Hi, how are you?" and **kicked** me!

I **stopped**, I **screamed**, I **thought** I was lost,

Then I **saw** a cat, so I **meowed**, "I **GOT LOST**!"

## (Chorus)

# Simple Past PAST CONTINUOUS

[Verse]

The simple past and the past continuous. These tenses help us talk about actions or events in the past, but they are used in different ways "I bought the new novel by my favorite author yesterday." "Mark drove home, unloaded his car, and made a cup of coffee." Habitual or repeated actions:

Ders: İngilizce

Konu: Past continuous and Simple Past

"Last summer, I went to the park every weekend."

"I sent Leila three emails, but she never replied."

How to Form the Simple Past?

Regular verbs: Add -ed to the base verb (for example, walk becomes walked).

Irregular verbs: Change the verb form (for example, go becomes went, buy becomes bought).

"The past continuous is used to describe actions that were ongoing at a specific time in the past. It emphasizes the duration of the action."

"The structure is was/were + verb (-ing)."

For Examples

"I was talking on the phone for hours last night."

"My brother was acting strangely yesterday."

"The simple past describes a completed action, while the past continuous describes an action that was in progress at a certain point in time." Simple past: "She walked to school yesterday." (Focuses on the action being completed.)

Past continuous: "She was walking to school when it started raining." (Focuses on the action in progress.)

"Sometimes, we use the past continuous to show that an action was in progress when another action (in the simple past) interrupted it. In these cases, we use while or when to connect the two actions."

For Examples

"Sultan left the room while his friend was still talking."

(The friend was talking, and Sultan left.)

"When I was studying in South Korea, I met many interesting people."

(Studying was the ongoing action, and meeting people was the event that happened during it.)

There are some Common Mistakes to Avoid Mixing the Tenses Incorrectly Incorrect: "She was watched a movie yesterday." Correct: "She watched a movie yesterday." Forgetting the Auxiliary Verb in Past Continuous Incorrect: "They watching TV all evening." Correct: "They were watching TV all evening." Using the Simple Past for Interrupted Actions Incorrect: "I studied when she called me." Correct: "I was studying when she called me."

"To summarize, the simple past is used for completed actions or habits in the past, while the past continuous describes actions that were in progress at a specific time or were interrupted. Practice using both tenses in your writing and speaking. Great work today, everyone! See you next time!"

Every season's got its rhythm, every season's got its fun.

Summer heat, we're on the rise, feeling so alive,

Autumn leaves fall, we keep the vibe, we thrive.

(Bridge)

Each season's a story, a chapter to unfold,  
From the frost on the ground to the summer's bold,

Every season's magic, every turn it takes,  
Life's a journey through the seasons, feel the changes it makes.

## Past Contionus vs. Past Simple

I walked to the park, the sun was high,  
Birds sang sweetly across the sky.  
Past Simple told me: "It's a done deal,"  
A finished moment, clear and real.

Past Continuous said: "Hey, not so fast!"  
"I was running while the rainstorm passed!"  
Ongoing action, right in the flow,  
Now the difference, here we go!

Past Simple: What happened? It's clear and bright!  
"I danced all evening, I slept all night."  
Past Continuous: What was going on?  
"I was dancing when the lights turned on!"  
Time travelers, learn with me,  
Past and past in harmony!

She cooked a cake, the job was done,  
Past Simple: Finished, wasn't that fun?  
But "She was baking when I called," you see?  
Past Continuous, as clear as can be!

Bu şarkı İngilizce dersi kapsamında "Past Contionus ve Past Simple arasındaki farkı eğlenceli bir şekilde anlatmak" üzere suno kullanılarak yaratılmıştır.

While I was walking, the phone rang loud,  
An action interrupted — Past rules allowed!  
So, "was" or "were" with "-ing" in line,  
For an action that took some time.

Past Simple: What happened? It's clear and bright!  
"I danced all evening, I slept all night."  
Past Continuous: What was going on?  
"I was dancing when the lights turned on!"  
Time travelers, learn with me,  
Past and past in harmony!

Past Simple's done, Past Continuous goes on,  
Together they sing the grammar song!  
So next time you talk about yesterday,  
Think of this tune and you'll find your way! 🎵

Onun fiilin iki hali var, biriktirenleri takip et;  
Temel form'dan geçmiş form'a geçiş, her

# Simple TENSE

**"Present Simple Every Day"**

**(Verse 1)**

**I wake up, the sun does rise,  
I brush my teeth, I open my eyes,  
She eats breakfast, he drinks tea,

For things we always say,  
For habits and routines,  
And facts that life brings.**

For things we always say,  
For habits and routines,

Or facts like "Birds fly,"  
For routines like "She sings,"  
And truths that never die.**

We play games, they do it too,  
Add "-s" for he, she, it,  
Present simple is a hit!**

Impulse buys no time to borrow  
"I'm going to" buy some milk and bread  
Planned it out in my head

Going to's a plan that's where it's at  
Use "will" for things right then and there  
Use "going to" for plans with care

If you say "I'll call you later"  
It's not fixed just maybe greater  
"I'm going to" call at eight o'clock

Learn the difference with a cheer  
Make your statements shine and bright  
Know the tense with power and might

Ich habe gelernt, es ist so klar,  
Perfekt bilden ist wirklich kein Gefahr!  
Habe, bin, als Hilfsverb, hör genau,  
In der Vergangenheit, das wissen wir genau!

Ich **habe** gegessen, und **du hast** geschlafen,  
Er **ist** gegangen, und **wir sind** gelaufen!  
Sie **hat** gesprochen, **du hast** gelacht,  
Das Perfekt ist da, es wird gemacht

Ich habe gelernt, es ist so klar,  
Perfekt bilden ist wirklich kein Gefahr!  
Habe, bin, als Hilfsverb, hör genau,  
In der Vergangenheit, das wissen wir genau!

Die Aktion ist vorbei, doch die Erinnerung bleibt,  
Mit „haben“ oder „sein“, der Satz sich beschreibt!  
Für Bewegung, für Zustände, „sein“ ist der Plan,  
Für alles andere „haben“ – dann geht's voran!

Ich habe gelernt, es ist so klar,  
 Perfekt bilden ist wirklich kein Gefahr!  
 Habe, bin, als Hilfsverb, hör genau,  
 In der Vergangenheit, das wissen wir genau!

Habe oder bin, das ist die Frage,  
Finde das richtige, dann hast du keine Plage!  
Ein **Partizip II** ist auch ein Teil,  
Dann klappt **das Perfekt**, ohne viel Geheul!

Ich sehe **den Hund** , er läuft zu **dem Baum** .

Ich werfe ihm **einen Ball** , doch er gibt mir nichts!

Er gehört **dem Hund** , doch ich brauche **ihn** hier.  
Stell **den Ball** auf **den Tisch** ,

Du schickst **mir** eine Nachricht, doch ich antworte **dir** nicht,

# TICK TACK

Die Zeit läuft, tick tack,  
Es ist eins, es ist zwei,  
Die Stunde kommt, die Stunde geht,  
Die Zeit bleibt niemals steh'n!

Es ist acht Uhr morgens,  
Der Tag beginnt,  
Ich steh' auf, zieh' mich an,  
Und geh' raus in den Wind.

Die Uhr zeigt zehn Uhr,  
Der Kaffee duftet sehr,  
Aber ich muss gehen,  
Die Zeit ist immer mehr.

# PYTHON

(Verse 1)

I write my code, it's simple and clean,  
With Python, I'm a coding machine.  
Define a function, pass a little data,  
Loops and lists make it all greater.

(Chorus)

Python, Python, your syntax is so bright,  
From classes to arrays, you make it feel right.  
With Pandas for data, and NumPy to play,  
Python's the language that lights up my day.

(Verse 2)

I handle errors with a try and except,  
Python's got me, I'm never misstepped.  
From Flask for the web, to TensorFlow,  
Python's got everything, it's good to go!

# Let's CODE TODAY!

(Verse 1)

Let's write **Python**, here we go,  
First, **print("Hello!")**, say hello!  
Variables hold what we store,  
Like **name = "Alice"**, now learn more!

(Verse 2)

Need some input? That's **input()**,  
Type your name, and it's put!  
Want a number? **int(input())**,  
Now do math, we're not through!

(Chorus)

**Loops** go **for** and **while** all day,  
Repeating code in a simple way!  
If it's true, we do this now,  
Else we change it—take a bow!

(Verse 3)

**Lists** hold values, one by one,  
**fruits = ["apple", "banana"]**, that's fun!  
Grab an item, **fruits[0]**,  
Python's magic, watch it flow!

(Verse 4)

**Functions** start with **def my\_func()**,  
Call them up, don't let them bunk!  
Need a library? **import math**,  
Now **sqrt(25)**—do the math!

(Chorus)

**Loops** go **for** and **while** all day,  
Repeating code in a simple way!  
If it's true, we do this now,  
Else we change it—take a bow!

(Bridge)

**Errors** come, don't be sad,  
Check the syntax, it's not bad!  
Use **try** and **except** just right,  
Catch mistakes, code so tight!

(Verse 5)

**Dictionaries**, key and pair,  
**person = {"name": "Claire"}**!  
Call **person["name"]**, it's right there,  
**Python** makes it all so fair!

(Final Chorus)

Let's code **Python**, don't delay,  
Practice, learn, you'll win the day!  
**Debug errors**, take your time,  
**Python's** cool—it's so fine

## Edebiyatın İzinde

Ders: Edebiyat  
Konu: Genel

Bir ses yükselir, eski zamanlardan,  
Sözlü edebiyat dillerde saklanır.  
Destanlar anlatır kahramanları,  
Masallar büyütür çocuk yanlarımızı.

Bir mani söylenir, yıldızlar altında,  
Koşmalar, se mails yankılanır rüzgarda.  
Divan şiiri zarif, süslü kelimeler,  
Aruzla dans eder, gönüller titrer.

Kelimenin izinde, düşler peşinde,  
Şiirle, romanla yol al içimde.  
Sayfalar çevrildikçe tarih konuşur,  
Edebiyat kalpte hep var olur!

Tanzimat'la açıldı yeni bir çağ,  
Sanat mı toplum mu, sorular var.  
Realistler yazdı hayatı aynada,  
Romancılar anlattı dün yarına

Kelimenin izinde, düşler peşinde,  
Şiirle, romanla yol al içimde.  
Sayfalar çevrildikçe tarih konuşur,  
Edebiyat kalpte hep var olur!

Heyecanım, Soluklarım

Bir anda kalakaldım

Maslör'e sığındım

Fısıldadı bana

Seyirciler eğlendi

Peruğumu savurduğumda

Bir alkış geldi

Perde kapandı, ışıklar söndü

Biletler yerler, her yerde

İnsanlar, diller, sözler

Taklitlerimiz takdirnamelerde

Ve böylece güzelce tamamladık

Rol bitti, ben oldum

# EQUATIONS OF LIFE

[Verse 1]

In the realm of numbers, secrets quietly lie,  
Equations and functions guide us to the sky.  
From algebraic puzzles to calculus so grand,  
Every solved problem reveals more of life's  
plan.

(Chorus)

Math is the language that the universe speaks,  
A melody in numbers where wisdom peaks.

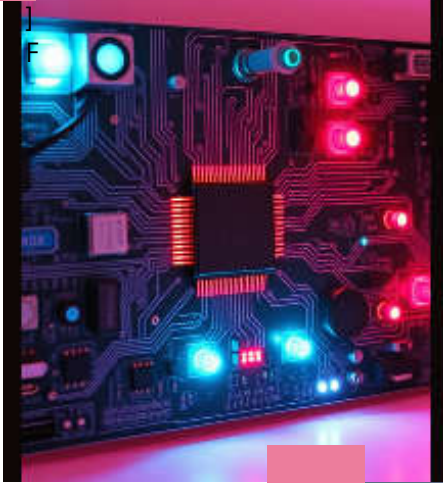

Each theorem and formula, a verse in our song, [Verse 2]

Guiding our journey as we learn to belong.

Geometry shapes our world with precision  
and art,  
Statistics and chance play their own vital  
part.  
In every calculation, a mystery unfurls,  
Illuminating truths in the chaos of the world.

(Bridge)

Mistakes are but milestones on our winding  
way,  
Each error a lesson that shows us a brighter  
day.  
Through trials and proofs, we find strength to  
persist,  
In the silent language of math, hope and  
reason exist.

Geometri, noktalar, doğrular, açılar ve sizler üzerine kurulu bir matematik verisidir.

Nokta, boyutsuz bir konumu ifade eder, tüm geometrik şekillerin temelidir.

Doğru, iki yönlü sonsuza kadar uzayan bir çizgidir.

Doğru parçası, iki uç nokta olan ve sonlu uzunluğa sahip bir çizgidir.

Kır, bir noktadan sona kadar devam eden bir doğru parçasıdır.

Düzlem, sonsuz genişliğe ve kalınlık olan, noktalar ve doğrular içeren bir yüzeydir.

Kaplama yani mozaikleme, belirli şekillerin karlımasından ve üst düzeyde ortaya çıkan bir yüzeyin tamamen kaplanmasıdır.

Kaplama Türleri 3 tanedir.

Düzenli Kaplama: Sadece bir tür şeklinin tekrarlanmasıyla oluşur.

Üçgenler, kareler ve altıgenler düzenli kaplayabilir.

Düzensiz Kaplama: Farklı türlerde yapılan kaplamadır.

Mesela bir kare ve üçgenlerin simetrisi bir kaplamadır.

Sanatsal Kaplamalar: M.C. Escher, sanatta geometrik

kaplamaları en iyi şekilde kullanan sanatçılardan biridir.

Bal petekleri doğadaki en mükemmel altın kaplamadır.

Karo döşemeleri geometrik kaplamaya örnektir.

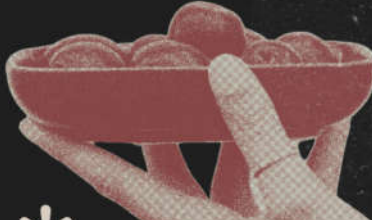

Geometrik kaplamalar mimari tasarım, zemin kaplamaları, duvar kaplamaları ve endüstriyel tasarımda kullanılır.

Fraktallar, kendini tekrarlayan, detay içerenlerdir.

Öklid geometrisinden farklı olarak, fraktallar düz değil, girintili parçalarla ve sıklıkla görülenler mevcuttur.

Kar parçaları, ağaç dalları, nehirler ve sahil çizimleri doğal fraktallara sıval olarak alınır.

Mandelbrot Kümesi en ünlü temel fraktallardan biridir.
